## Disclaimer Information

1. I am willing to be guided through relaxation, visual imagery, hypnosis, and/or stress reduction techniques. I am aware these modalities are non-medical in nature and it is my responsibility to consult my regular doctor about any changes in my condition or changes in my medication.
2. I understand the above modalities are not substitutes for regular medical care and I have been advised to consult my regular medical doctor or health-care practitioner for treatment of any old, new or existing medical conditions.
3. I understand that change is my own and complete responsibility. I understand that ALL HEALING IS SELF HEALING and that BDevine® is only a “facilitator” in the process of helping me to solve my own problem(s). It is my responsibility to be open and honest, provide accurate feedback and be forthcoming with details and information that may help me achieve my outcomes.
4. I understand I may be assigned “homework” or be asked to make changes to my life by my higher self in regards to complete or solidify any healing or changes begun in our session today. I understand that this information and advice for change comes not from the QHHT facilitator, but from my own higher being
5. I understand that our session will be digitally recorded for my later use. I also understand that in these types of metaphysical sessions, the energy in the room can affect the equipment and recording resulting in static or blank recordings. (This is quite rare, but it does happen!)

I understand that I may share my recording and information in the future in any way that I am personally comfortable.

I understand that often in QHHT sessions, universal information is provided through the client to benefit all of humanity. I agree to allow BDevine® (and /or Dolores Cannon) to share this information and any accompanying story either on video or in written form in blogs or books as long as my name and all personal and relevant details are omitted or changed- of course, I will be informed every step of the way, should this occur.

## **What to expect after your QHHT session.**

After a QHHT session with BDevine®, you may feel a wide range of emotion, excitement, relief and happiness. Sometimes people experience a time when they are a little overwhelmed with what has taken place.

BDevine® suggests that, you take a couple of days 'recovery' from your session.

Please remember to drink lots of water (possibly as much as 2 - 3 liters a day)

You may find that you are extremely tired, even the following day, so it is vital, that you pay attention to your body, and its needs. In fact resting allows even more healing to unfold for you.

After the session, you will have to 'ground' your energies, and BDevine® will provide some light snacks and drinks, and make sure that you feel OK to proceed home.

Your transmission is best listened to when you have privacy, not on the way home from your session! Thus, BDevine® will email the transmission, or place it on a CD and mail it to you.

Remember to **listen to your session as often as possible!!**. People who have had the best results have listened to their recording a lot of times. There is further healing in the messages that you have been given. The "SC" always recommends this.

Follow any recommendations, that you have been given. You have had a deep release-you may be tired, or feel as though you need to be left alone for a time. Follow your intuition! If you are worried about anything that you are feeling, be sure to see your GP.

Most importantly, you have just had a fantastic experience. You may be given further instructions in your session from the Subconscious (SC) and also sometimes further healing is given when you sleep.(Usually for 3 days following your initial healing)

You may feel that you have 'made it all up' and many people feel this way-however, when they see the changes in their lives, mentally, physically and emotionally, there is no doubt that have truly reached and had healing with the subconscious.

Please feel free to email us, if you have any questions or concerns.
