As a dedicated practitioner, I am very blessed to be able to bring to those who are interested, the "Quantum Healing Hypnosis Therapy" - or QHHT for short. This is a session that lasts between 3-5 hours, and is done privately, with myself, in a beautiful and peaceful home environment.

(I am also able to come to you with prior arrangements)

This will be unlike anything you have ever tried before, and is nothing like traditional hypnotherapy.

## **QHHT sessions with BDevine:**

You would be having a 4-5 hour session with me, in a peaceful home setting.

This is a PRIVATE session, and as such, you will need to come by yourself.

This is for your own sense of comfort, and for the best session.

You are not in therapy, the whole 4-5 hours! We spend a lot of time together, getting to know each other, and what your needs are. Our hypnosis therapy will last approx. 1.5-2 hours, in which time your session will be recorded for you.

This will be emailed to you after your session. We talk before the session at length, and also after the session, so you can process what has taken place. Drinks and small snacks are also provided :)

The success of the therapy relies on your willingness to release issues once and for all. It is recommended that you come with a list of issues that you have, so that these can be addressed at your session. Every session is worthwhile, and a wonderful benefit to your life.

***You will always get what you need!*** Please keep this in mind.

In my experience with this therapy, already there have been astounding breakthroughs!

Here is a list of *some* of the healing already:

- \* Cancer-all types
- \*Psoriasis & skin issues
- \*Back bone and swelling completely healed
- \* Scoliosis healed
- \* Liver
- \*Kidneys
- \*Ribs
- \* Fear
- \*Hate & anger
- \*allergies also gone forever

\*Many emotional and spiritual issues are also healed on all levels.

\*These are just some of the countless miracles that have occurred!

This method of healing is for everyone, and is life changing. However, I do recommend, that you have a session only when you truly feel guided to do it, and you are ready for a complete change. Again, the results of your session rely heavily on your **willingness for change and healing**.

Most people only require ONE session, that covers everything. However, a lot of people are curious, and wish to regress into past lives, or have healing for some other issue. Your second or subsequent therapy sessions are reduced in price.

Sessions can also be carried out as a surrogate. Perhaps your child or family member needs a healing, and if unable or too young to do it themselves. You can be a surrogate for this person, with their permission of course. The healing will go to the person, even without them being there in person.\*Please ask for more details should you require this session\*

**There are also discounted sessions for pensioners or those on benefits.**

**Sessions may also be paid in instalments, but session will not commence until paid in full.**

**The total cost of your session is \$300. Paid via PayPal or direct deposit into bank account.**

**If you are a pensioner or on benefits your total cost is \$260.**

***If you have any issues with payments, please talk to me! I am more than happy to help you-money should be your last concern here!***

**So here is what you get with a QHHT session with me.**

A private 4-5 hour therapy session with BDevine

Including: interview, quantum healing hypnosis, past life regression, healing and answers to your questions.

You receive an mp3 recording of your session, via email.

You receive discounts off your second and subsequent visits.

You will be in a quiet and comfortable environment, to relax and enjoy.

You will have the deepest healing experience in your life, if you are truly ready to let go and receive.

You will be able to bring with you a list of questions or issues you have.

I will be with you the entire way, doing my best to help you achieve the results you are looking for!

Drinks and snacks will be provided :)

**More information, taken From Dolores Cannon Website- [www.dolorescannon.com](http://www.dolorescannon.com)**

"Dolores' technique involves inducing an individual to the Somnambulistic state of trance through visualization. A state which under ordinary circumstances is experienced only twice daily: the moment just before you become consciously awake and the moment just before you drift off and fall asleep.

Historically, hypnotists have avoided conducting research with patients in this state because of the strange and often inexplicable results that are recorded.

Not one to be limited by this disciplinary stigma, it was working with clients specifically in the Somnambulistic state and exploring the possibilities that led Dolores to discover that any individual can gain access to experiences of Past Lives they have lived.

It was also exploring with clients in this state that she discovered an infinitely knowledgeable and powerful aspect of each individual that can be contacted and communicated with. This part of ourselves, as Dolores has learned, is always present with us and exists just below the surface of our conscious mind, so she appropriately chose to label it The Subconscious. The Subconscious is what gives her and practitioners of her QHHT technique access to past lives and performs instantaneous healing's when appropriate.

Over her 45-year career, her technique has proven to be effective on thousands of people all over the world regardless of their Age, Gender, Personality, Physical Symptoms, Religious Beliefs or Cultural Backgrounds. Supplementing the vast body of work Dolores has produced, the results experienced by QHHT Practitioners, students of Dolores who have learned her technique and practice it with their own clients, conclusively support the finding that we have all lived multiple Other Lives and we all have a Subconscious which contains the answers to any question we may have about ourselves or the life we are living.

## **What is Past Life Regression?**

Past Life Regression is the first component of Dolores' QHHT technique and involves the individual being regressed and guided through an appropriate past life from the first scene they first view, throughout the various periods of the life and eventually through to the death scene.

The Subconscious will select what past life to show the individual and they will be guided through it by either Dolores or the QHHT practitioner conducting the session. The past life the Subconscious chooses to show an individual is always relevant to the current life the individual is living now and it is not uncommon for multiple Past Lives to be shown during a single session. Dolores or the QHHT practitioner will navigate an individual through a Past Life using a series of questions to help determine the time period and social setting of the life.

## What is The Subconscious?

Dolores' Definition:

The Subconscious that is contacted by Dolores and the practitioners of her QHHT technique is the polar opposite to the subconscious referred to by psychologists and conventional medical professionals. During her early years as a hypnotherapy, Dolores became aware that through her unique technique of induction she was contacting and communicating with a portion of an individual's consciousness that was indeed a part of them, yet lay far above the level of their conscious mind, which is the part of ourselves we are aware of and use to interact with others on a personal level. The Subconscious is a suitable label given the context of Dolores' work; however, religions and spiritual teachers alike have attempted to identify and label this larger part of ourselves throughout history using a variety of different labels: the Higher Self, the Over soul, Christ Consciousness, Higher Consciousness, the Universal Mind and Oneness. The Subconscious has stated to Dolores that it does not care what we call it, it simply -Is and is willing to work with those with a pure heart and true intent.

## Characteristics of the Subconscious

A series of fascinating changes occur, both in the individual hypnotized and the surrounding environment, once communication is established and the Subconscious is present. The first observable change is a dramatic rise in the level of energy in the room, with those present often describing feelings of euphoria and intense excitement. Without exception, a feeling of both immense power and immense love is experienced by all in attendance.

## Working with the Subconscious

Dolores' main objective is always to help improve the lives of the clients she works with. Therefore, the purpose of working with the Subconscious is always to help an individual to the greatest extent possible in whatever capacity possible. This help can come in many different ways.

The Subconscious knows everything there is to know about an individual and the life they are living now, so one of the first actions taken by Dolores or the QHHT Practitioner is to ask the Subconscious the questions an individual has about their own life. Obtaining this information on behalf of the individual is crucial to the healing aspect of the technique as it provides them with comfort, support and greater understanding in many different areas of their life. The Subconscious will only choose to share information that is appropriate at the time and information that will only be of benefit to the individual.

The explanation the Subconscious gives for why we experience disease will most certainly challenge the belief systems of many people in our current medical and scientific paradigms. As we move through this time of great change and transition, many people are indeed stretching their belief systems to incorporate new ideas and concepts by seeking out alternative information that mainstream science has either dispelled or ignored.

Many long held paradigms of accepted thought are beginning to crumble and are slowly being replaced by concepts and ideas that can no longer be suppressed as a result of the Internet and instantaneous communication all over the world. In order to understand the Subconscious and this component of Dolores' QHHT technique, you will have to stretch your belief system to enable you to understand the following concepts in the context they are given.

This concept is extremely challenging to even consider at first and many will reject it as either illogical or irrational.

The myriad of advances in Quantum Physics over recent decades have triggered a snowballing body of evidence supporting the notion that the thoughts that we predominantly think dictate the reality we experience. In fact, a large body of scientific evidence now exists which proves that thought has a direct, measurable effect on physical matter. This is simple to understand when one considers that all matter is just energy vibrating at different frequencies. Thought is the projection of energy and we have evolved to a point where we have conscious control over our thoughts and what we think. The spoken words 'I love you' and 'I hate you' are the physical projects of thought energy. Now think about the effect those phrases have on the physical bodies of whom you may say them to.

The goal here is not to convince you of anything you are not ready to accept, nor is it to persuade you to reject anything you are not ready to disregard, it is simply to provide you with a platform upon which you can understand how Dolores' QHHT technique works and how the results it achieves are possible.

## Healing

The Subconscious has the ability to identify any physical problem it detects within the body to Dolores or a QHH Practitioner and explain the causes for its presence, be it from the current life or a past life. The Subconscious is then asked if it is suitable for healing to occur, which, if it is, is done instantaneously with no medication, surgery or pain involved. Very often, simply understanding why a disease is present or why a particular emotion is being experienced is sufficient for it to be relieved and removed by the Subconscious.

Over the course of her career, Dolores has conducted sessions with clients where the physical healing that occurs has been challenging for even her to comprehend. She has been teaching her technique to students all over the world for a decade and many write back detailing miraculous accounts of a similar nature.

Before detailing this list of what is possible in terms of healing, it must be stated that healing can only occur if an individual wants to be healed and if it does not interfere with the goals of their lifetime. We are infinite souls who have incarnated on Earth for our own individual experiences. The Subconscious of a blind person would not heal his sight if being blind was one of the key aspects of his life he agreed to experience. Nor would it heal a physical problem someone had created through the lack of care for their body if they had not yet learned the lesson to love and respect their body. It is very literal in its thinking. Are you beginning to understand the logic?
